EUROPEAN NEWS.

CROWNING A YOUTHFUL AFRICAN POTENTATE.

[illegible] Property Through Boulanger—Russian Officers Arrested for Conspiracy.

LONDON, Oct. 1.—Advices from South Africa say that the natives are making elaborate preparations for the crowning of the 15-year-old king of Swaziland, the ceremony being fixed for October 3rd. An impi has been sent out hunting for a lion, tiger, buffalo and a large snake. During the ceremony of the coronation the young king will eat a portion of the hearts of the first three animals to give him courage, and afterwards he will be anointed with the snake's fat to prevent him from being bewitched. The buffalo's head will be placed on the ground, and the young king will sit on it between the horns, clothed only in a lion's skin the first day, and in a tiger's skin the second day. On the third day he will come out of the kraal without a vestige of clothing or covering of any kind, and in this condition be presented to his people who will come up from all parts of Swaziland to salute "Byate," the king of the Swazie nation, designating him as a great lion, great tiger and other titles. The chiefs, or Induna, will each be expected to give him a good start in life. The ceremonies will be witnessed and participated in by the British commissioner, the nation being under the protection of the British Government.

THE TIMES ON PROTECTION.

Referring to the McKinley bill to-day the Times says in a long leader: "Its avowed end as a protective measure will, no doubt, be secured, and it will discourage foreign competition and will diminish or exclude very many classes of foreign goods which have found a market in America. That it will derange industries abroad is, perhaps, no objection to it from a strictly American point of view. This, however, it will not do without inflicting equal damage on Americans."

A DESERT EXPLORER.

F. Foreau, who has won reputation and competency through a system of artesion wells, by which he has made a new oasis along the Wady river, in the southern part of Algeria, has been absent for several months on a tour of exploration to the far south of Sahara. He crossed at the Algerian part of the desert, and advanced as far as the oasis of Tidikelt, being the first European, since Salleillet's journey, who has advanced so far. It is expected that the results of Foreau's expedition would lead to further surveys by the French, and that the first step towards this enterprise will be an expedition to take the hostile and fanatical Touarges into subjection. Foreau's journey is of great importance to the proposed railroad that the French intended to build across the desert. There will be no obstacle in the way of pushing the road clear across the desert to Soudan, and a new era of French enterprise in the north of Africa will begin.

SWISS DISCONTENT.

Reinforcements have been sent to Ticinto. The discontent is spreading.

THE EFFECTS OF BAD COMPANY.

Comte de Paris is in serious danger of having his property in France confiscated on account of the Boulangist revelations. The Comte has heretofore been looked upon as a dignified pretender, who would not stoop to conspiracy, and has been respected by those who hated his pretensions. Now, however, he appears as a mover in a dastardly scheme for the overthrow of the republic. The Government has concluded to institute an official investigation with a view to getting at all the facts and of prosecuting those who have been criminally concerned. The prospects, therefore, are that the pretender and the Duchess D'Uzes, who appears to have acted as the feminine go-between for the Royalists and Boulanger, will find themselves the defendants on very serious charges. According to the French law the absence of the Comte will not effect his trial or sentence.

MORE RUSSIAN CONSPIRACY.

It transpires that during the recent army manœuvres at Rovno, four officers serving under General Gourko were placed under arrest charged with conspiring against the Government. Copies of a pamphlet inspired by Polish revolutionists were found in the possession of the arrested officers. The pamphlet urged the people of Russia and Poland to offer a common resistance to the Government of the Czar, and the officers of the Russian army were appealed to to free the country from despotism.

Teemer Beats Hanlan.

PITTSBURG, Oct. 3.—A special from East Liverpool, Ohio, says that the race there to-day between Teemer and Hanlan was won by Teemer. Teemer landed easily at the finish of the race, which was for $1000, which was subscribed by citizens of East Liverpool, and was given as an additional attraction to the fair now being held at that place. No time is given.

Died for His Child.

PARIS, Texas, Oct. 2.—For several years there has been litigation in the courts for the possession of a child between its grandfather, E. M. Turner, and its father, R. C. Stirman. Stirman married a daughter of Turner, and after three years of wedded life she left her husband and her father took her and her two children home and cared for them until she died. One of the children died soon after its mother. Stirman demanded possession of the other, a boy, but was refused, after which long litigation ensued, and the courts decided in favor of the grandfather. Yesterday Stirman visited Turner's house and demanded the child from his brother-in-law, who had charge of the child during the grandfather's absence, but young Turner declined to give the child up. Stirman drew a pistol, but Turner knocked it out of his hand, and a hand-to-hand encounter ensued, during which Stirman was thrown to the ground. Turner then called to the boy to give him the pistol, which he did, and pressing it to Stirman's head, shot and killed him.

OSWEGO, Oct. 3.—Shippers are hurrying their barley through from Canada in anticipation of the increased duty imposed by the McKinley tariff. Nearly 300,000 bushels have been received during the past 24 hours, as against 50,000 bushels received during the same period last year. Freights have advanced to four cents, and every craft capable of carrying grain has been pressed into service. Tugs are towing vessels clear across the lake both ways. About 800,000 bushels are in store, but little is held in bond, duties being paid on nearly full amount. On Sunday night about forty vessels were waiting to discharge their cargoes. A large amount of barley is being forwarded to Albany, New York, Philadelphia and other points.

Would Not When they Could.

NEW YORK, Oct. 3.—Authorities at the barge office and three female missionaries this morning used an immense amount of moral persuasion on 32 young women that arrived yesterday on the steamer Wyoming, to induce them to forgot their intention of becoming proselytes to the Mormon faith. It was an utter failure, as all that the barge office authorities can do is to use persuasion. The entire party of 202 souls, of whom 32 are children, will proceed on their journey to-morrow.

More Murderous Insanity.

SARATOGA, N.Y., Oct. 3.—Jas. Denton, a farmer, living on Brill farm, three miles north of Saratoga, shot his wife at one o'clock this afternoon then sent a bullet through his own brain. He had been suffering from mental depression and is believed to have been insane when he committed the deed.

MIDAS' FIAT.

The Knights Must Go—The Brotherhood's Turn Next.

NEW YORK, Oct. 3.—The New York central officials have decided that no more Knights of Labor shall be employed on the road, and to-day Vice-President Webb issued a circular directing the heads of various departments to make their decision known. The circular is addressed to the general manager, superintendent, chief engineer and superintendent of motive power and rolling stock, and says: "The recent strike and acts of lawlessness committed in connection therewith, the published correspondence between the leader of the organization that ordered it and the fact that many men now seeking re-employment state that they quit work from fear of personal violence, and did not dare resume work for the same reason, compel the management of this company to announce that it objects to its employees being members of an organization known as the Knights of Labor management, satisfied that membership with this particular organization is not consistent with faithful and efficient service to the company and is liable at any time to prevent it from properly discharging its duties to the public. You will at once take such action as will bring this circular to the attention of employees in your respective department." General Superintendent Voorhees said to-day the circular means precisely what it says: Knights of labor must either give up their membership in the order or leave the road.

MYSTERIOUS DISAPPEARANCE.

A Young Man Disappears on the Eve of His Marriage.

NEW YORK, Oct. 3.—A Herald's St. Louis, Mo., says: Richard Mobrey, editor and half-owner of the Prospect News at Daphane, Ripley Co., Mo., came to St. Louis last Monday morning for the purpose of fitting himself out to get married, and has dropped out of sight. His brother is here looking for him. He is one of the most prominent men connected with the Western press, rich and of an influential family. He was to have been married last Wednesday to Miss Effie Morgan at Rolla, Mo. Arrival for the young woman's affections, on learning that she had accepted Mobrey, made a declaration to the effect that she would never marry Mobrey. When Mobrey came here he stopped at Hurd's hotel. On Tuesday evening he got his key and started for his room at 8 o'clock, since which time not a word has been heard of him. The matter has been placed in the hands of the police. Investigation showed that he had put on a complete new suit of clothes and left the old ones in his room. Even his marriage license was found in his valise, and with it were three threatening letters, which the police now have. These letters were without signature, and set forth in plain terms that the man should never marry Miss Morgan, and if he did she would be a widow within ten days. The police and missing man's friends have visited every hospital, and have exhausted every resource, without finding the least clue as to the man's fate. The rejected suitor of the girl is under surveillance. The young lady is prostrate.

THE CAPITAL.

Names of the Shippers of Cattle Seized at Dundee.

Special to the TIMES.]

OTTAWA, Oct. 3.—The shippers on the More King, seized at Dundee, Scotland, on suspicion of having animals affected with pleuro-pneumonia on board, were John Crow, 325 head; Robert Beckerlike, 88 head; Akins and Flanagan, 240 head; and Samuel Price, 190 head of sheep all of Montreal.

There is quite a panic over the matter in business circles of Montreal, and the question arises who will pay expenses.

Large lines of new goods in furniture, carpets, glassware, etc., constantly arriving at John Weiler, 51 to 53 Fort street.

THE VICTORIA EXHIBITION

FORMALLY OPENED TO-DAY BY LIEUT.-GOV. NELSON.

[illegible] Crowded with Sightseers—Electrically Illuminated—The Hall Will be Beautiful—Names of Prize Winners.

The exhibition grounds were the center of attraction to-day, when the formal opening took place. At one o'clock His Honor Lieut.-Governor Nelson declared the exhibition open. In doing so, he spoke of the pleasure it gave him to be present at a gathering of such a kind. He referred to the fact that he had the honor two years ago to open an exhibition at the same place as this one. It was most pleasing to notice the great advancement, as the present exhibition was manifestly much ahead of former ones. He had also the honor to open two exhibitions in New Westminster, one of them only a few days ago, and he was proud to say that the great advancement there was distinctly marked. Everybody knew of the great fertility of the Delta lands of the Fraser. He believed that the low lands on the coast of Vancouver Island were much the same, and that the valleys were just as capable of growing cereal and other products. It was or had been the opinion of outsiders that British Columbia was only a fish, mineral and lumber country. He thought that exhibitions such as this one was proof that such was not the case, and that agriculture was bound to become a great factor in the progress of the country. Speaking of the possibilities of the land in British Columbia his honor mentioned that five acres of land in New Westminster, which a few years ago was covered with a dence forest, last year produced over $4,000 of strawberries. When so much money could be made from so small a piece of land, which a short time ago was comparitively worthless, who should say that agriculture had not a brilliant future in British Columbia. His honor then announced the exhibition open.

The crowds of visitors bent on sightseeing, filled the few blank spaces on the floors of the main building. Near the fancy work, flowers and samples of bread, cake and butter, could be seen the fair sex in force, and many were the admiring expressions heard. City bred folks looked in wonder on the big beets, prodigious pumpkins and monster mangold wurtzels. Horsey people were interested in the stables, and farmers and others gathered near the cattle sheds. An ever changing crowd slowly drifted through the main building, the many things to be seen being a never ending source of attraction. Among some of the most noticeable were the

HORSES.

In this class was a Clydesdale exhibited by Messrs. Gilchrist and McCollum, of Ladner's. "Just in Time" is a splendid animal, and has a pedigree proving him to be a well bred beast. Henry Simpson, of South Saanich, shows "Ben II," a heavy Percheron. "Romulus," a white stallion, owned by W. Templeton. A span of Ontario driving horses imported by Mr. Templeton, are fine creatures. George Rasure shows "Richard A," a pedigreed horse of excellent build. G. E. Brown has a fine shire horse in "Marsh Drayman." James Mercer, of Chilliwhack, is owner of "Home Ruler." A Cleveland Bay, "Republican," is a magnificent horse. A pair of general purpose horses, shown by Mr. Armstrong, attract much attention. J. Wilkinson shows a trotter, "Nellie Fox." W. J. Taylor's "Kisber" is an excellent animal of the same class. H. F. Page, of Matsqui, makes a splendid show, all his stud being of a high pedigree. "Glaneuse," "Fantasia," two Percheron mares, and a stallion "Papillon II," with several general purpose horses are shown. H. E. Newton is a large exhibitor, "Martello," one of his animals, being a perfect Cleveland bay. Brood mares and a stallion are also shown by Mr. Newton. A. K. Munro shows a California trotter, "Storm" out of "Tempest," out of "Jeanne Perranlt," by "Signal." "Storm" is a stallion with a fiery eye, but is as gentle as a kitten. J. Bryce exhibits some strong animals bred for heavy work, "Tom" and "Fred" being grand dray horses. Keefer & McLean show a mare with foal, and a neat carriage horse put in by G. A. Perrin, together with many other horses make a fine display.

THE BOVINE CLASS.

The neat animals congregated in the sheds show what the province can do in the way of cattle raising. A Durham bull, "Chilton Duke," owned by Mr. Tolmie, is a splendid animal. Eight Shorthorns are also shown by Mr. Tolmie. P. E. Ladner has a Durham bull already a prize winner, and a cow and calf. Mr. Mercer, who has a good show of horses, has some fine Durhams on exhibition. The cows are magnificent creatures and are all pedigreed. Geo. McCrae shows a large lot of Holstein and dairy cattle. He has also some good stock from ordinary cows. Mr. Newton shows a good herd of dairy cattle. Messrs. Page and Wilkinson show Herefords. Devous and Ayrshires.

SHEEP.

In sheep Messrs. Tolmie, King, Wilkinson and Perrin make good shows. Southdowns and Leicesters are the breeds mostly exhibited.

SWINE.

Fat pigs, little curly-tailed pigs, and all sorts and conditions of pigs are exhibited. Messrs. King, Sturdy and Walker being the principal exhibitors.

POULTRY.

Among the exhibitors in this class are Messrs. W. J. Wale, F. Sturdy, Dr. Milne, Mr. Merrit, J. C. Carmichael, J. C. Flett, F. G. Walker and J. T. Wilkinson. The exhibit is large and some fine birds can be seen. Mr. Wale shows some fine Cochins as well as geese and ducks. Mr. Sturdy, turkeys, Hamburgs. Mr. Merrit has a fine lot of black Langshans and a pair of [illegible] other varieties. Dr. Milne shows in brown Leghorns, light Brahmas, black Minoresa, white Leghorns, partridge Cochins, laced Wyandottes, and some other varieties. Mr. J. T. Wilkinson of Chilliwhack, has some fine light Brahmas. J. C. Flett of Somenos, [illegible] are very fine. Mr. McLennan has a fine show of white Wyandotte fowls. Mr. Perrin also makes an exhibit. Mr. Creech shows some fine Bantams. Master Miller has taken a large number of prizes for pigeons and they are a fine lot. In canary birds Dr. Milne has taken a number of prizes.

THE MAIN BUILDING.

One of the striking features of the exhibits on the ground floor is a lofty pyramid of tinned salmon, built up by Mr. Langley, of twenty-one brands of salmon handled by Messrs. Robert Ward & Co. Thousands of tins are used in the construction of exhibit, and it shows the great figure the canning industry occupies in British Columbia. Alongside is a smaller exhibit of salmon by J. H. Todd & Co., which also shows many well-known and excellent brands.

TERRA COTTA.

The beautiful and artistic forms into which clay can be moulded is shown by the Adderly Co. Mr. Nativel has work on exhibition which proves him to be not only an artist, but a skilled workman. All classes of ware is shown, from heavy drain pipes to the most delicate vases. The work cannot be excelled by English made ware.

SILVERWARE.

The only exhibitors are Davidson Bros., but they make up for the lack of competition by a handsome display of beautiful and useful goods. Clocks and other novelties also attract a deal of attention, there being several new designs of much merit shown.

MARBLE CUTTING.

Some fine specimens of this art are shown by George Rudge. Native marble has been used in many cases, and the specimens show that good workmanship and an artistic eye are advantageously used in Mr. Rudge's work.

MALT LIQUORS.

In beers and porters, Carter & Perris, and Gowen Bros., make a good showing. Savory has some of his famous cider on exhibition.

FURNITURE.

Lockhart & Co.'s drawing room took the the first prize. The work shown is certainly fine. Five pieces are upholstered in sea shell design, spring edge. The work is excellent and shows an attention to details rarely if ever excelled. The cosy chairs look inviting, and the graceful curves of the cushions showed an artistic eye.

Hastie & Erskine held second in drawing room furniture. To the uninitiated however, there could be seen nothing to excel their work. The upholstering was excellently done, the colors of the coverings being rich and tasty, while in general appearance nothing was left to be desired.

John Weiler's bedroom took first prize, as it was sure to do. Many were the exclamations of delight heard as the admiring crowd viewed the tasteful arrangements.

BOOK BINDING.

G. Roedde of Vancouver took first prize for book binding and paper ruling. His work in this respect cannot be excelled by the best continental establishments. Some samples in marbled calf were extra good, as also were some specimens of business book binding.

JAMS AND JELLIES.

The British Columbia Fruit Canning Co. of Vancouver made a brave show. All sorts of tinned fruits, jams, jellies, etc., were on view, as were extracts, fruits essences, etc. This company are preparing to put up a great deal of fruit next year.

The British Columbia Fruit Preserving Co. of New Westminster also have a large assortment of canned fruits on view, neatly and attractively labeled they form a special feature, and as the industry is a new one, it is of considerable interest.

Unfortunately Victoria is unrepresented in the way of jams and jellies, but it was owing to an unfortunate oversight, that Mrs. Alfred Few, of 25 Henry street, this city, did not make an exhibit. Had Mr. Few done so there is no doubt the excellence of his goods would have compared favorably with the mainland exhibits. Mr. Few has only commenced this season to put up fruit, but over two tons of his wares have been placed on the market and have found a ready sale.

WOODWORK.

In over mantels and mouldings, Muirhead & Mann have done some excellent work. Native woods have been used exclusively and the effect is very fine.

BOOKS AND STATIONERY.

J. R. Kerr has the only exhibition of books and stationery. It is a most complete one, and shows skilful and artistic arrangement. The capabilities of the Central Bookstore are evidently inexhaustible, if one is to judge from the fine selection shown.

DECORATIVE SHRUBS.

G. A. McTavish takes the palm in this. His floral exhibits are also wonderfully rich in color and magnificence. Jas. Moss, the florist, also has on view some splendid flowers and shrubs, as has P. T. Johnson. In cut flowers and potted plants McTavish takes the lead.

HOUSE FURNISHING.

McLennan & McFeeley have made a very striking exhibit. A kitchen stove with copper water heater, a gasoline stove, and all sorts of culinary tools are arranged in a house built of stovepipes and galvanized iron ornaments. A sample of their patent fencing is also shown. The enterprising firm have come out well, and attract much attention with their goods.

BY NIGHT.

Mr. Gibson has his electric lamps trimmed and burning. By night the

JUSTIFIABLE HOMICIDE.

A White Boy Assaulted by Young Negroes and Stabs One Fatally.

ATLANTA, Ga., Oct. 3.—Davis street [illegible] the race troubles often manifest themselves. On Wednesday, as Chas. Blackstock, aged 11 years, was coming home from school he encountered a crowd of little negroes and the latter began pushing him and soon blows ensued, and eventually the boy was thrown to the ground and several of his assailants piled on top of him, among them being Marshall Cates, a boy about Blackstock's size. Blackstock succeeded in freeing himself and ran across the street with the colored boys, led by Cates, after him. Then the white boy drew a penknife and plunged it into the breast of a little negro who sank to the ground and died in a few minutes. The coroner's jury rendered a verdict of justifiable homicide.

MUNICIPAL.

A BY-LAW.

To enable the Corporation of the City of Victoria to raise the sum of $300,000 for Sewerage Purposes.

A [illegible] T TO raise the sum o $300,000 [illegible] of constructing a general syste[illegible] sewerage works for the benefit of the [illegible]ity of Victoria.

And whereas, for the purpose aforesaid it will be necessary to raise by way of loan, upon the credit of said Corporation the sum of $300,000.

And whereas, it will require the sum of $14,659.65 to be raised annually by special rate, for the payment of said debt and interest as hereinafter mentioned.

And whereas, the amount of the whole rateable property of the said Corporation of the City of Victoria, according to the last revised assessment roll, being for the year 1889, was $8,948,903, irrespective of any future increase of the rateable property of the said Corporation of the City of Victoria, and of any income in the nature of tolls, interest or dividends from any stock, shares or interest in the work upon which the money so to be raised or any part thereof, is intended to be invested, and also irrespective of any income from the temporary investment of the sinking fund or any part thereof.

And whereas for the saving of interest and creating an equal yearly sinking fund for paying the principal sum of $14,659.65 and interest as hereinafter mentioned, it will require an equal annual rate of 164-1000 of one per cent. in the dollar.

And whereas it is the intention of the Mayor and Council of the Corporation of the City of Victoria that three persons, to be called Commissioners of Sewerage, shall be appointed to superintend the construction and erection of such sewerage works, and confirm all disbursements and outlays in connection therewith.

Therefore be it enacted by the Mayor and Council of the Corporation of the City of Victoria as follows:

1. It shall be lawful for the Mayor of the said Corporation of the City of Victoria, for the purpose aforesaid, to borrow or raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, the said sum of $300,000, and cause the same to be paid to the Treasurer of the said Corporation, and in respect thereof for the said Mayor to issue debentures of the said Corporation to the amount of $300,000, in sums of not less than £200 sterling, or its equivalent, each payable at the end of fifty years from the date on which this by-law takes effect, and to bear interest at the rate of four per cent. per annum, payable half yearly, on the 20th day of May and on the 20th day of November in each and every year during the currency of the said debentures.

2. The said debentures, as to principal and interest, shall be payable at the office of the Bank of British North America in London, England, New York City, New York State, United States of America, or Victoria, Province of British Columbia, Canada.

3. It shall be lawful for the Mayor of the said Corporation of the City of Victoria, and he is hereby authorized and instructed to sign and issue the said debentures hereby authorized to be issued. The Clerk of the said Corporation is hereby authorized and instructed to attach the seal of the said Corporation to the said debentures after such signing by the Mayor.

4. For the purpose of forming a sinking fund for the payment of the said debentures, and the interest at the rate aforesaid to become due thereon, an equal special rate of 164-1000 of one per cent. in the dollar shall, in addition to all other rates, be levied, raised and collected in each year upon all the rateable property in the said Corporation during the continuance of the said debentures, or any of them.

5. This by-law shall, before the final passage thereof, receive the assent of the electors of the said Corporation in the manner provided by the Municipal Act, 1889, and amending Acts.

This by-law shall take effect on the 20th day of November, 1890.

This by-law may be cited as the "Sewerage Loan By-Law, 1890."

Passed the Municipal Council this 6th day of August, A.D. 1890.

Received the assent of the ratepayers the 18th day of September, A.D. 1890.

Reconsidered and finally passed the Council this 30th day of September, A.D. 1890.

A BY-LAW

To Repeal the "Fire Prevention By-law."

Be it enacted by the Council of the Corporation of the City of Victoria as follows:

SHORT TITLE.

1. This By-law may be cited as the "Fire Prevention By-law."

INTERPRETATION.

2. The interpretation By-law applies to this By-law.

FIRE WARDENS.

3. The Council shall, at its first meeting after each annual election, or as soon thereafter as conveniently may be, and from time to time as a vacancy occurs, appoint one of the Aldermen [illegible] and one of his successors is appointed.

4. The Mayor and Fire Wardens shall have supervision and control of the officers, members and employees of the Fire Department and shall prescribe the rules for its discipline and management. The Mayor and Fire Wardens shall have control and management of the public property now pertaining to the Fire Department of the said City of Victoria, and shall from time to time in their sound discretion, always subject to the approval of the Council, purchase, add to and acquire when necessary, or sell and dispose of when not required for the use of the Department, engines, hose carriages, hose and such other property as the exigencies of the Department may require. The Mayor and Fire Wardens shall, on the first day of January of each year, or so soon thereafter as practicable, report to the City Council the estimated amount of salaries and other necessary expenditures of the said Fire Department for the ensuing year.

5. No person shall impede in any way or hinder any Fire Warden, Fireman [illegible] other person under the direction of the Chief Engineer of the Fire Department or other o[illegible]er in command at any fire or fires.

OBSTRUCTING APPARATUS.

6. No person or persons shall w[illegible]y or carelessly permit any vehicle to obstruct the progress of the app[illegible]atus of the Fire Department going to or re[illegible] alarm or drill.

BREAKING BLOCKADE.

7. No person or persons, save and except the Mayor, Fire Wardens, Police, Firemen and owners, occupiers or employees of buildings endangered by fire, shall be permitted to enter any burning building or within the lines designated by ropes or guards across all or any streets, lines or alleys, and any person or persons entering within the lines designated by the ropes or guards, or refusing to move when directed to do so by any police officer or officer of the Fire Department shall be liable to a fine or imprisonment, or both, as provided for in this By-law.

DRIVING OVER HOSE.

8. No person or persons shall run over with any vehicle the line or lines of hose in use at any fires, alarms or drills, so as to injure the said hose.

RIGHT OF WAY.

9. All moveable apparatus of the Fire Department shall have the paramount right of way at all times through all streets, lanes and alleys.

FALSE ALARMS.

10. No person or persons shall, without reasonable cause, make or circulate or cause to be made or circulated any false alarm of fire by outcry, ringing of bells, or otherwise.

11. No person or persons shall break, remove or injure any of the parts or appurtenances of the fire alarm telegraph without authority from the Chief Engineer of the Fire Department who shall report such action to the Fire Wardens.

12. No person or persons shall make or fit any key to the lock of any signal box of the fire alarm telegraph, have or retain in his or their possession, or under his or their control a key belonging to or fitted to open the lock of any signal box without authority from the Fire Wardens and Chief Engineer of the Fire Department so to do, or pick or force the lock of any such signal box.

13. No person shall put or place, maintain or suffer to be or remain, any article, thing or matter on or upon the sidewalk so as to interfere with the free access or approach to any signal box of the fire alarm telegraph.

14. Any person moving or intending to move any house or building in, on and through any street or streets where it may become necessary to interfere with any fire alarm wire, shall give due notice to the Fire Wardens and Chief Engineer of the Fire Department before commencing to remove said house or building. The person moving said house or building shall give security in coin, not less than twenty-five dollars, and any other security that may be necessary to defray all expenses in taking down, removing, fixing and repairing said fire alarm telegraph or any portion thereof, or any damage thereto in consequence of the moving or removal of the house or building.

FLYING KITES.

15. No person shall raise or fly a kite within the city limits.

FIRE ESCAPES.

16. Every building of three stories or more in height, occupied or used as a hotel, boarding or lodging house, or any factory, mill, manufactory or workshop, shall be provided with good and sufficient means of egress in case of fire. Every building in which operatives are employed above the first floor shall be provided with metal fire escapes, and women and children shall not be employed above the second story of any factory, shop or printing office unless there are two or more means of exit. All fire escapes shall be built and placed in accordance with the instructions of the Chief Engineer of the Fire Department or other officer, appointed by the Fire Wardens, shall be kept free from any obstructions and shall extend from the first story to at least four feet above the roof.

17. Every building of four stories or more in height used as a store, warehouse, factory, workshop, hotel or lodging house and all theatres shall have a four inch metallic stand pipe within or near the front wall, extending from four feet above the line of sidewalk to the line of roof, and at each story there shall be proper branches with gate valves, and there shall be a Siamese inlet at the line of sidewalk, all of the proper dimensions to connect with the hose of the Fire Department.

STOVES, FIRE PLACES, ETC.

18. No smokestack or pipe of metal for conveying fire, smoke or hot air, shall be fixed nearer than twelve inches to the face of any timber, and no such smokestack or pipe of metal shall pass through any timber framing or partition of wood or lath and plaster, or through any wooden floor unless it is encircled by a rim of solid stone, brick, or metal not less than three inches wide and equal in thickness to the full finished thickness of the framing through which it passes.

19. No person shall set or place any stove, furnace, range or vessel in which fire may be kept, in such a manner that the back thereof be less than sixteen inches from any woodwork; unless such woodwork is protected by metal, and in that case not less than twelve inches; and all iron stoves, furnaces and vessels in which fire may be kept, not built into a brick chimney, shall stand upon stone, brick, zinc or other incombustible material, which shall project at least one foot from the front or door of the same.

20. Every occupant of any building shall keep all pipeholes in any chimney in such building, while such pipeholes are not in use, closed by a proper stopper of metal or other incombustible material.

21. No occupant of any building shall permit any chimney, stovepipe or flue therein to become unclean or take fire.

ASHES.

22. It shall be unlawful for any person to deposit any ashes, or cause the same to be deposited or placed, or permit the same to be or remain in any wooden vessel or upon the floor of any building, or in any place or premises belonging to or occupied by him, or her, or others, or in any metallic vessel within two (2) inches of any woodwork or structure, or place, or permit any hay, straw or other combustible material uncovered within his courtyard or lot of ground within ten (10) feet of any building.

INFLAMMABLE SUBSTANCES.

23. No person shall keep any larger quantity than eighty gallons of coal oil or other oil of a similar combustible character in wooden casks, or three hundred gallons in tin, iron, stone or earthenware, or twenty gallons of crude oil, burning fluid, naphtha, benzole, benzine, or other similar combustible fluid in any wooden building; and no person shall keep any larger quantity than one hundred and fifty gallons of coal oil, or other oil of a similarly combustible character in wooden casks, or seven hundred and fifty gallons in tin, iron, stone or earthenware, or eighty gallons of crude oil, burning fluid, naphtha, benzole, benzine, or other similarly combustible fluid, in any brick building, unless the same shall be kept in a cellar properly ventilated and without a floor, or with a floor of brick, stone, cement, or other incombustible materials, in which case three hundred gallons of coal oil or other oil of a similarly inflammable character in wooden casks, or one thousand gallons in tin, iron, stone or earthenware, may be so kept; and no person shall permit or suffer any of the fluids mentioned in this section to flow into any municipal drain or sewer.

24. Notwithstanding anything in the last preceding section contained, when fire-proof buildings, so constructed as to insure at all times a thorough ventilation thereof and used exclusively for the purpose of keeping or storing coal oil, burning fluid, crude oil, naphtha, benzole, benzine, or other similarly combustible materials, are isolated or detached at least two hundred feet from all other buildings, then any of the said fluids may be kept and stored therein without limit as to quantity, subject to the provisions hereinafter contained.

25. No person shall take, light or use in any such storage building as is mentioned in the last preceding section, any fire, either for heat, light or other purpose.

26. No person shall at any time keep or store any fluid mentioned in this By-law, in the unlimited quantity therein authorized or mentioned, unless he has obtained from the Inspector of Buildings, within one year then last, a certificate to the effect that the building in which such fluid is stored or kept is in all respects of the character and description mentioned in that section; and for every such certificate the person obtaining the same shall pay to the Inspector of buildings, for the use of the Corporation, a fee of one dollar.

27. No person shall at one time, convey on any vehicle more than two hundred and fifty gallons of any of the combustible fluids herein mentioned or referred to.

28. No person shall keep in store or for sale or use in any building within the Fire Limits more than the quantity of hay or straw following, namely:

For every livery or hack stable, 1½ ton.

For storage or sale, 15 tons.

For private consumption, 2 tons.

29. No person shall, in any building where hay, straw, shavings or other combustible materials may be, smoke or have in his possession any lighted pipe, cigar or cigarette, or carry or keep, or suffer to be carried or kept, any lighted lamp, candle, or taper not being enclosed in a lantern or shade so as to prevent accident from fire therefrom.

SMOKE AND DRY HOUSES.

30. All smoke houses or dry houses shall be built of brick or stone, and the doors and roof of same shall be constructed of some non-combustible material.

SHAVINGS, HAY, STRAW AND LITTER.

31. Each person making, doing or having the charge or control of shavings, hay, straw, paper, bags, litter or any other combustible waste or fragments, shall, at the close of each day, cause the same to be securely stored or disposed of so as to be safe from fire.

AISLES OF BUILDINGS.

32. All aisles and passage ways in buildings used for public assemblages shall be kept free from camp stools, chairs, benches, sofas, or other obstructions during any performance, service, exhibition, lecture, concert, ball, or public assemblage whatever.

SMOKESTACKS AND CHIMNEYS.

33. Whenever in the judgment of the Fire Wardens or upon the complaint of a majority of the residents adjacent thereto, any smokestack, chimney, flue or stovepipe endangers the surrounding property by fire, or annoys the residents in the neighborhood with smoke, soot or cinders, the Fire Wardens shall order the same to be abated, altered or improved as they may think most suitable for the protection of the surrounding property and conducive to the comforts of the residents in the vicinity.

UNOCCUPIED BUILDINGS.

34. Whenever any unoccupied building or buildings are not properly secured the Chief Engineer of the Fire Department or other officer in charge of said Fire Department, shall immediately visit the premises and notify the owner, agent, or person having control of same of the condition of the said unoccupied building or buildings, and to have it, or them, within twenty-fours, properly secured, so as to prevent evil disposed persons having access thereto.

PERMIT TO KINDLE FIRES.

35. No person shall kindle or cause to be kindled or used, any fire upon any street or highway, or anywhere in the open air in the City of Victoria, without a permit to do so signed by the Chief Engineer, or other officer in charge of the Fire Department. This section shall not include fire in furnaces necessarily used in laying roofs or pavements, nor the fires used in furnaces of engines necessarily used in blasting or hoisting, nor to fires in the open air upon private property, necessarily used in setting tires upon the wheels of vehicles or in heating tar or pitch.

ENFORCING REGULATIONS.

36. The Chief Engineer of the Fire Department, Assistant Chief Engineer, or any municipal police officer, may enter upon any property which is, or is reasonably supposed to be subject to the regulations of this By-Law, in order to ascertain whether such regulations are obeyed, and no person shall obstruct any such officer in the discharge of his duty.

37. Every person convicted of an infraction of any of the provisions of this By-law shall forfeit and pay a penalty not exceeding fifty dollars.

REPEAL.

38. The by-law "For the Protection of the City against Fire," No. 4, the by-law, "Defining the Duties of Fire Wardens and regulating the the conduct of the inhabitants at fires," No. 2, "A By-Law for the protection of fire ladders within the City of Victoria," No. 73; the "Fire Alarm By-Law, 1882," No. 87, the "Petroleum By-Law, 1882" No. 92, sections 3, 4, 10, 11, 12, 13, 14, 15, 16, 17, 18, and 29 of the "Victoria Building By-Law, 1883," No. 98, and section 6 of the "Fire Limits and Wooden Buildings By-Law, 1885," No. 116, a By-Law for the prevention and suppression of fires, 1887, and so much of every other by-law as is inconsistent with this by-law or makes any provision for any matter herein provided for, are hereby repealed; and this by-law is substituted for them.

Passed the Municipal Council the 3rd day of September, A. D. 1890.

Reconsidered and finally passed the Council this 23rd day of September, A. D. 1890.

VICTORIA, FRIDAY, OCT. 3.

WHAT POLITICAL DISHONESTY WILL EVENTUATE IN.

A Massachusetts congressman who has no interest in a manufacturing concern, is reported to have said the other day: "This business of making a tariff bill ought to be left entirely in the hands of the manufacturers, who know [illegible] that will surprise people. The impression is abroad that the business of tariff making is in the hands of the manufacturers. As a writer on the subject of protection has said: "Whenever protection is menaced, it is sure to buy as many votes as it thinks necessary," which would seem to show pretty conclusively that the manufacturers fix matters to suit themselves. Perhaps the Massachusetts congressman means to say that protection should be taken away from Congress and lodged in a congress of manufacturers. What would be the use of going to that trouble when congressmen who are not manufacturers may be bought or bullied into the support of protection measures. What is government to-day? Is it a benevolent institution, or is it a device for legitimizing certain forms of theft? We incline to the latter belief. He who has noticed the character of legislation of recent years is forced to conclude that the benefits accruing to the public were more in the nature of drippings, the bulk of the outflow of profit having been diverted into private channels. The deliberate scoundrelism of men who legislate in the interest of class at the expense of the many presents a spectacle unworthy of pagans, let alone an alleged Christian people. It would appear that since virtue is never practiced except as a necessity that society one day will be compelled to go back to first principles, the tribal relation, that it may escape the abuse of power resulting of the sins of legislators.

A NEW CHIEF.

The Hon. JOHN ROBSON at last has secured for himself the sinecure without which the office of Minister of Education, so called, is barren of fruit. The Premier is now chief of the fire department of the public schools, and in fancy we hear him humming softly to himself, as he wends his way round to the different coal yards obtaining prices, these familiar words, "This is the way I long have sought." The question now arises, how must we rank the Premier in the list of civic functionaries? Does he belong to the order of "chiefs," and hence must he be recognized by Chief SHEPPARD, Chief DEASY and the sanitary department as one of them? If such is the case we would have the Premier get inside of a blue uniform, and we hope that the aforesaid Chiefs of the aforesaid departments will extend to the newly fledged officer the amenities due his exalted station. But the Premier's status in relation to the servants of the municipality is immaterial. Chief DEASY may look askance at him, and even dun him for $5 in the event of his fooling round the engine house on Yates street, but that, we repeat, is immaterial. What concerns us most is, how should it have been possible for the Premier to grasp about the only prerogative section nine had left the school trustees? The sly old gentleman! His *coup de etat* was accomplished while the trustees were trying to decide which of their number should settle LOWENBURG & HARRIS' little account. While they were debating the Premier was acting; he ordered four tons of coal. But will this usurpation of the Premier's stand? Is it to be presumed that this provincial CÆSAR will continue to hold the fort? Is there no BRUTUS among the school trustees? Rouse! rouse! we say. Will you sulk in the city hall, like so many AJAXES, and allow the sole remaining vestige of power left you by section nine to be torn from your grasp? Unless, gentlemen, you assert your manhood, not the most humble coal dealer in town will do you reverence. We would not be understood, gentlemen, as urging that someone of you be detailed to linger hard by the coal yard gate and poniard the usurper when he comes round to give the monthly order for more coal. Don't "remove" him in any such way as that, for it would give some local ANTONY, the Colonist perhaps, a chance to orate and shake to the breeze the coat the Premier wore at the last Cariboo election. Don't attempt to remove the usurper by sanguinary methods, nor even by putting dynamite in the telephone in view of the probability of his ordering coal through that medium. Let your revenge be more exquisite, gentlemen. Resign! It is certain through the ballot box whether the public approve of the Premier adding to his already onerous duties those of a duel agent. The Premier, stabbed by public disapproval, would be a pitiable object indeed. Over his limp corse, MARK ANTONY Colonist might wail but in the face of triumphantly re-elected trustees it would scarcely have the effrontry to undertake a funeral oration. Yes, stab him by resigning. Beaten in the election that would follow, your situation would be no worse than it is at present, whereas, if you should win, and there is no doubt that you would, the Minister of Education (?) would be brazen indeed if he did not resign.

EDITORIAL NOTES.

A Vancouver paper professes to be alarmed about the maritime and commercial supremacy of the "Terminal City" receiving a black eye from Victorians. The paper says that the people of Victoria intend building another dry dock at Esquimalt at a cost of $2,500,000, and will ask the Dominion Government to subsidize it, and the people of Vancouver are advised to make such necessary representations to the department as will foil any in[illegible] that may be going on in the dark. KOOTENAY NEWS.

Mountain Fever—First White Child Born at Nelson.

Peter McCarthy of Calgary, one of the principal stockholders in the Golden smelter, was in Donald a few days last week. He stated that the smelter company intended to at once begin the erection of another stack for copper ore exclusively, and another bridge across the Kicking Horse.

Mountain fever has broke out in McKenzie & Co's tie camps at Blackberry, there being 16 cases, one fatal, up to the 20th, among the number Edward Langham, manager of the firm. The men in the camps are nearly all from the East, about 100 arriving recently, and are subject to the fever, not being acclimatized.

Work on the wagon road to the Hall mines has been temporarily suspended, owing to a disagreement between the contractor and the committee having the work in charge. About three miles of the road are completed. The bridge gang are still at work.

The Nelson Brick Company has successfully burned a first kiln of 40,000 bricks. They are of good quality and a bright red in color. The same company will also have lime from Galena Bay by the next boat.

It is reported the Kootenay Lake custom-house is to be removed from Rykert's to Balfour, the new townsite at the outlet. If the change be made, the the custom house will be 8 miles from Ainsworth and 20 from Nelson.

John Buchanan is building a boat at Marcus to run in the Trail creek trade, and Cleveland & Kelly are bringing one down from Revelstoke to engage in the same traffic. Mining recorder Topping writes, under date of the 25th, that in all probability the people of this camp "will chaw regularly the coming winter."

Born at Nelson, on Monday the 22nd, to the wife of A. E. Shirley, a daughter, weight, 12¾ pounds. Mr. and Mrs. Shirley should be presented with a house and lot, not because of their many virtues, but because of their being the parents of the first white child born in this great commercial center.

As unofficially stated last week in the Miner, the steamer Lytton will not run from Sproat to Little Dalles hereafter This is caused by low water in the Columbia, there being 18 inches less than at this season last year. The Lytton will make the usual two trips a week between Sproat and Revelstoke, leaving the latter place on Mondays and Thursdays, and the former on Tuesdays and Fridays.

Reports from Pilot Bay are that work on the Davies Sayward mill is progressing slowly and well. The engine and boiler are in place, but the frame of the mill is not yet up. As all the machinery is to be placed on the second floor of the building, it is not expected that the mill will be cutting lumber earlier than November 1st. The logs taken out by Bob Yuill last winter are all at the mill.

FOR DRUG-BUYERS.

Money Can Be Saved by Buying Medicine by Its English Name.

All the large drug firms print and distribute catalogues and price-lists of their drugs, says the New York Sun. Most of these catalogues contain almost all the standard prescriptions. The formulas for the most frequent diseases are printed in these pamphlets, with the quantities of the doses and the prices at which the pills, powders, or liquids are sold to the trade. Every doctor has several of these price-lists, and every drug store has a pile of them. A man who has any of the ordinary ailments will find his prescription repeated in one of these price lists. The difference is that the price-list usually gives the ordinary names for the drugs used, while the prescription is written out in a way which only a doctor, or a drug-clerk, or a man who has picked up the knack of it can understand.

The difference between the prices in the price-lists and the prices at which the goods are sold is from 400 to 2,000 per cent. If a man gets medicines often and can find a friendly disposed doctor he can save a great deal on the price of his prescriptions. The thing to do is to have the doctor write out the prescription in English, or to give him a copy of one of these pamphlets with the pill, powder, or whatever it may be, marked. He learns the name of it by heart, then he goes to the drug store and asks for what he wants instead of handing in a prescription for it. This is a simple thing to do, and will save from one-half to three-quarters the price.

The Meanest Man in Nebraska.

A Kenesaw hotel-keeper is said to be the meanest man in Nebraska. The story goes that a short time ago he was so sick that he needed watchers. A young butcher in that town was asked to sit up one night, and he readily consented to do so. His wife went with him to visit the hotel-man's wife. The landlord's wife pursuaded her to remain all night, occupying the same bed with her. In the morning at their earliest solicitation the butcher and his wife staid to breakfast. Some days afterward the butcher was surprised to have a bill for 75 cents presented to him by the landlord, who explained that 25 cents was for his wife's lodging and 50 cents for their breakfast, on that occasion. They compromised by a discount of 10 cents.

THE DOCTOR'S SKELETON.

How He Obtained the Corpse Which Furnished It.

"Every family is supposed to have a skeleton in the closet," remarked Dr. Wheeler, in the Sunday conversation, to a party of friends who met him at the Union depot last night, says the Kansas City Times. "I had one in my closet until this week, when I shipped it to the Michigan State University. I don't want to see it again.

"It happened like this: Many years ago when I commenced the practice of medicine in a small Missouri town, the Jesse James boys paid us a visit. They [illegible] six thousand people in the town. The excitement was pretty general on both sides. I had a revolver, and during the general excitement I shot one of the robbers. He was dead when we picked him up. A finer specimen of physical manhood I have never seen. The natives in the little Missouri village made no objection when I claimed the youth's skeleton as my prize.

"Last week, one rainy night about eleven o'clock, a genuine old-fashioned frontiersman came to my office. He asked my name, then inquired if I had a skeleton in my closet. His face was bearded and sunburnt, but there was something about him that made me think of the young man I had killed many years before. I was alone in the office, and I didn't like the color of the visitor's eye. However, I answered his question in the affirmative.

"Let me see the skeleton!" said my queer visitor.

"It would scarcely do to refuse. I walked to the rear of the office, where there was a small table out of sight of my visitor. I drew out from the desk a revolver, the same one that had ended the career of the youthful bandit years before. Holding it in my hand, I stepped to the closet, threw open the door, and remarked with as much coolness as I could command by force of will:

"'There is the skeleton!'

"'Put up your revolver,' remarked the stranger. 'I won't hurt you. If I had wanted to shoot you I would have killed you when I came into the office. I have just been down in Oklahoma, and I am on my way back to Tennessee. I heard the story of your killing one of the gang, and as near as I can make out it was my boy that was killed. He ran away from home when only twelve years old, and I never saw him after that. I don't hold any grudge against you. You did what was right, I suppose. But I thought I would take this chance to see what is left of the poor boy.'

"I then showed the stranger the skeleton, which was handsomely mounted, and described the raid as briefly and gently as possible. The old pioneer's only remark as he gazed upon all that was left of his boy was: 'Well, he was a big fellow, wasn't he?'"

WYOMING JOURNALISM.

The Trials and Tribulations of an Editor in the Far West.

"You may talk about the hard times experienced by the spring poet and the continuous hustling of the reporter who writes 'specials' for a metropolitan newspaper, but all these are nothing compared to the trials and perplexities of an editor in the Far West."

This, from T. B. Waters, editor and owner of a paper at Silver Cliffs, Wyo., ought to be accurate, says the Chicago Tribune.

"Out in Wyoming," he continued, "we sometimes have to get assistance from those who know nothing of the newspaper business, and the mistakes these novices make are disastrous. About a month ago we had at Silver Cliffs a big political meeting, a roller-skating tournament, and a wedding the same night. I could not attend all three events, so I got our town clerk to write up the wedding for me. He came in late and I turned his copy in without looking at it. Then I went home and let my brother get out the paper. When I read the account of the wedding next morning I was a fit subject for an insane asylum. After stating that Bill Lane and Mary Sabin were married, the account proceeded to describe the costumes like this:

"'Sarah Baker, red frock, white sack, and hair bunched; Emma Hill, green dress, high-heeled slippers; Mabel Bull, some kind of thin stuff, white, and tied up with red tape, and hair frizzled; Ellen Graves, red hair, red dress, feet in front and stick out a mile behind; Emma English, dressed to kill, genuine velvet dress and seven rows of teeth on her gloves, her hair a dead yellow; Frankie Bean, hair tied up like a Vienna roll and had a lot of vegetables in it, her dress hoisted up the side with a pretty rope; Vinnie Churchill, hair frescoed, last summer's dress with a few new trimmings.'

"That's the way the account read. While it was not noticed much at home it gave my rivals down the Elkhorn Valley a chance to poke a little fun at us."

Telegraphic Postal Cards.

One of the improvements in the postal service of our large cities which might be considered is the adoption of the telegraphic postal card, which is such a great convenience in Paris. Open cards of this kind are delivered anywhere in Paris within an hour after they have been mailed for six cents; closed ones, giving as much room as an ordinary letter, ten cents. The cards are blown by pneumatic dispatch from central stations to the postal bureaux nearest their addresses, and are then delivered by messenger boys. There is an enormous consumption of them by business and professional people.

Bullfrog Battle in Japan.

A strange battle is reported to have taken place in Tokio. A stream runs through the compound of Tobukuji Temple at Sugamo, and a few days ago some hundreds of bullfrogs gathered on either bank. Then a terrific battle ensued, lasting from nine a. m. to four p. m., and it is stated that, when the combat was finished, the brook was blocked to such an extent with the bodies of the slain that the course of the water was almost totally impeded. Large numbers of people have visited the place to witness the strange spectacle.

THE VICTORIA EXHIBITION.

effect is brilliant in the extreme. The arrangements of the lamps has been skilfully done, all intense glares or deep shadows being avoided. By electric light the exhibits look better than ever, and everyone is pleased at the appearance after light up time.

MUSIC, ETC.

C Battery band under the leadership of Prof. Pferdner discourses sweet music at intervals. The eye is regaled [illegible] and the one who goes to the exhibition for an hour or two and fails to be benefitted or amused, must be hard to please. Those who desire refreshments can obtain them at the W. C. T. U. tables, where everything to satisfy the inner man is supplied.

AN INDIGNANT FLOCK.

The Pastor of a Rich Church Marries Out of His Set.

NEW YORK, Oct. 2.—Rev. Richard Harlan, pastor of the First Presbyterian church, the oldest and wealthiest Presbyterian church in this city, and nephew of the justice of the supreme court, has been forced to resign because he married the woman of his choice, who was not a member of the congregation. The lady was the widow of Augustus Smith, formerly a tutor in St. Paul's school at Concord. Dr. Harlan married her more than a year ago at her parents' home in Geneva, and his congregation felt hurt that he had chosen a bride away from them. More than one eligible young woman who had been interested in church work suddenly lost some of her ambition.

When the congregation read the description of their pastor's wedding in the papers a great deal of indignation was expressed. Dr. Harlan was married in Trinity church, Geneva, by an Episcopal minister. One of the attendants at the wedding was Rev. Father Tom Brown, pastor of the ritualistic church of St. Mary the Virgin, in this city. There was much alarm at the First Presbyterian church on Fifth avenue, and not a few of the elders were perturbed in spirit.

On returning with his young wife his life was made so miserable that Harlan had to resign. The women slighted his wife, who is beautiful and very religious, and the men joined with their wives.

NEEDS REFORMING.

Brutal Aspects of the Child Marriage system in India.

LONDON, Oct. 2.—The revolution in the state of Manipur, in northeastern India, has no significance beyond local discontent. The deposed maharajah has made himself obnoxious by his extravagance and excessive exactions, and his ambitious brother found no difficulty in organizing a successful conspiracy for his overthrow. English rule in India is prosperous and well established, and the natives appear well contented, although there is a strong agitation going on for an Indian parliament, in which both states and people shall be represented. Another movement that is being powerfully urged by intelligent Hindoos is for a reform in the marriage laws. Females are married in infancy and their husbands bear them home while they are yet children. The agitation for this reform was caused by a recent occurrence in Calcutta. A Hindoo, whose daughter had been married when a babe four months old, objected strenuously when her husband came to claim her at the age of ten years. The husband summoned the native police to his assistance and the girl was borne away, shrieking for help, while her father lay senseless on the threshold. No one dared to aid the wretched girl, for the husband had native custom and English law on his side. The following day the girl bride was dead, a victim of the inhuman husband. The latter was arrested on a charge of murder, but nothing could be proven against him and he was released. This terrible occurrence has caused a thrill throughout India, and everywhere educated Hindoos are joining in the demand for a repeal of the barbarous law which permits such outrages. It is now sixty years since the burning of widows with their dead husbands was abolished in India, but much more remains to be accomplished to redeem women from their degraded condition.

A PARISIAN DELICACY.

"Faggots" Made of Fat Dogs Eaten and Relished.

A Paris cablegram to New York says: It is now some four or five years since the style of English baked meats known as "Faggots" was introduced into Paris by an enterprising Londoner. The faggot is something after the style of the American Hamburger steak, but smaller and more dainty. A Cockney named Francis has for a couple of years had almost a monopoly in this delicacy, owing largely to the epicurean palate with which his product was associated. Almost concurrent with his advent in Paris, however, complaints began to pour in upon the police authorities regarding missing dogs. In almost every case the canines reported as lost were full-blooded, high-bred, cared for and fed on the fat of the land. The complaints became so general that a couple of detectives of the Secret Bureau of the Perfecture of the Seine were detailed to run the dog thieves to earth. They were unsuccessful in the mission, however, and for a time the matter was dropped. Recently complaints have been renewed; the police authorities again became active, and finally suspicion was directed against the English faggot dealer. Upon a search of his residence no less than sixty fine bred dogs, including pointers, spaniels, greyhounds and Newfoundlands were found in the main cellar of the house. In an adjoining room, hanging from the ceiling, were eight more fat animals, skinned, and all ready to be sent to the big bake oven on the floor above. Somebody must have notified Francis that the police were on his track, for when the police came to look for him he was nowhere to be found. One of his children, however, confessed to the police that from the time of his coming to Paris his faggots had been made from the meat of stolen canines, and that the very savory smell and delicate flavor of his viands was due to the fact that each faggot contained a specially stewed portion of dog's hearts and livers, which had been beforehand prepared in savory herbs.

HEROIC ENGINE-MEN.

One Runs His Train Through the One Ahead to Save His Passengers.

"There are heroes and heroes, and there are heroines and heroines," says Chauncey M. Depew to a Philadelphia Press man, in speaking of the matter of personal bravery. "There are blue-shirted men who go over our railroad lines every day in engine cabs who would laugh at you if you intimated to them that they are heroes, and who, in spite of all, are as brave as any man who ever drew a sword or carried a musket. Railroad men seldom have much time to think. They are cowards or heroes in a second. Not long ago one of our engineers of an express train rounded a turn in the road and saw that another train had been derailed and lay right across the track. A collision was inevitable. The engineer might have taken chances and jumped, but he didn't. As he said afterward:

"'I saw right away we were in for it, and like a flash it struck me that our only chance was to go right ahead and cut through if we could. So I threw her open and let her go.'

"The experiment was perilous, but it was successful. He did 'cut through,' and no one was injured. This act of the engineer was that of an exceedingly courageous, cool-headed man.

"Another engineer on a Western road performed a similar act some time ago with tragic results. He tried to—or in fact was forced to try to—cut through a freight train that had been thrown across the track. None of the passengers were injured, but the engineer and his fireman were killed. This is but too often the reward of bravery in all walks of life."

A Warning.

MR. EDITOR,—It is a well-known fact that the majority of people are inclined to look upon a cold in the head as a matter of little importance—involving at the most only a temporary inconvenience. No more disastrous mistake was ever made. The neglected cold in the head is the source of the catarrhal affections with which about seven-tenths of the people of this country are afflicted, and catarrh itself is too often the preliminary stages to consumption and death. The symptoms of catarrh are manifold, but among them may be mentioned, offensive breath; dull, oppressive headache; offensive droppings from the nostrils into the throat and bronchial tubes; deafness or partial deafness; constant hawking and spitting; weak and watery eyes; a hacking cough and feeling of general debility; ringing in the ears and frequent dizziness. These are but a few of the more general symptoms, and those who experience them should lose no time in applying a remedy. Delays are proverbially dangerous, and in the case of this too prevalent disease may lead to death. We offer Nasal Balm to the public as a positive cure for cold in the head and for catarrh in all its forms and stages. Nasal Balm has been tested in thousands of cases, and the testimonials in our possession prove that it is all we claim for it. It has cured other sufferers, it will cure you. It is easy to use, pleasant and agreeable and does not require a douche, or any torturing instrument to apply it. Give it a trial and be convinced of its great efficacy. Sold by all dealers or sent post free on receipt of price 50c. for small or $1 for large size bottles by addressing Enlford & Co., Brockville, Ont. daw

A BY-LAW

Authorizing the Sale of Part of Lot 423, Block 2, Victoria City.

WHEREAS THE PREMISES KNOWN AS the Deluge Fire Engine House and the Tiger Fire Engine House, both situate in the City of Victoria, are in close proximity to each other for the best protection from fire of the said City:

And whereas it has been found expedient to dispose of the premises known as the Deluge Fire Engine House and the Lot of land upon which the same is erected:

And whereas it is the intention of the Corporation of said City to purchase other land and premises at some more advantageous and useful position or positions in said City, and to use the proceeds of the sale of said Deluge Fire Engine House and premises in the purchase of the said other land and premises and the erection and establishment thereon of other fire engine stations.

Therefore, be it enacted by the Mayor and Aldermen of the Corporation of the City of Victoria, as follows:

1. That the Clerk of the Municipal Council of the City of Victoria be, and he is hereby authorized to sell on behalf of the Corporation of the said City of Victoria the buildings and premises known as the Deluge Fire Engine House and the Lot of Land upon which the same is erected, being part of Lot 423, Block 2, of the City of Victoria.

2. That the said clerk do advertise for tenders for the said land and hereditaments, and that the price at which the same are sold shall be first approved by the Municipal Council of the said City.

This By-Law may be cited as the Deluge Fire Engine Sale By-Law.

Passed the Municipal Council the 18th day of August, A.D., 1890.

Received the assent of the ratepayers the 18th day of September, A.D. 1890.

Reconsidered and finally passed the Council this 30th day of September, A.D. 1890.

The Daily Times.

CITY AND PROVINCIAL.

THE LAST NIGHT

Of the Russell-Jewell Dramatic Company's Engagement.

The largest audience that has yet been present during their engagement, greeted the Russell-Jewell company last night. The play was East Lynne, and Mrs. Russell rendered Miss Darragh's Lady Isabel and Miss Dizie Morgan as Miss Cornelia were especially worthy of mention. To-night closes the engagement the play being Fanchon the Cricket, made famous by Maggie Mitchell. Miss Darragh assumes the role of Fanchon, and will be seen at her best. The full strength of the company is utilized in the caste, and they will undoubtedly close their successful engagement to a full house.

A DELIBERATE ATTEMPT.

A Well Known Barkeeper Jumps Into the Harbor.

About nine o'clock last evening a report was circulated around the streets that a well-known barkeeper had made a deliberate attempt to commit suicide by jumping off Turner, Beeton & Company's wharf. From a party who was on board the steamer Olympian at the time, a TIMES reporter gleaned that the crew of the Olympian had their attention attracted by a splash, and on looking saw a man struggling in the water. A rope was thrown to him, but he refused to help himself, and a man had to get down and put the rope around the drowning man's waist. He was then hauled on board the steamer, but had only been there a few minutes when he made another attempt to get into the water. He was prevented, however, and taken to the police station for safe keeping.

The attempt to end his life is supposed to have been caused by dissipation, and also on account of the loss of money in fitting up a place for business.

THE ART EXHIBITION.

A Few Unprejudiced Observations on the Work of our Amateurs.

The exhibition of pictures in the City Hall now drawing to a close, has been well patronized by the general public and lovers of art. Taking into consideration the short time the association has been organized, it has shown that we have in our midst artists of considerable merit and amateurs of great promise. Every artist has his peculiar handling, and we recognize in Mr. Shapnel's work great care taken in his drawing and faithful rendering of detail, which stamp his pictures as originating from a master hand. Mr. Bamford has shown his capability of grasping in a broad and comprehensive manner the lights and shades, which nature gives us in this wonderful country of diversified scenery, and we feel that with continued study and practice he will attain a high grade in the rank of landscape painters. Mr. Lee in his portraits and figures is well represented, and having painted many of the prominent men of the Pacific coast during the last 12 years is a sufficient guarantee of his artistic ability in his department of art. Messrs. Allan, West, Bambridge, Pauline, and others have shown painstaking care in the several subjects displayed by them in the City Hall. They all have degrees of merit and will compare favorably with works of a similar character in any exhibition. The water colors of Messrs. Carpenter, Gore and others are full of merit, showing much careful study of nature in all her moods.

The productions of the Misses Woods, Twiss, Brady, McMicken and Wylde, are praiseworthy and show individual talent of no mean order. In the department of architecture, the works of Mr. Baynes are equal to the productions of any country, while Messrs. Sorby, Soule, Norgate and Ballantyne have shown them to be men of advanced architectural knowledge and ability.

Taken as a whole, Victoria may be proud of having so much undoubted talent in her midst, and it is for the public of this city and province to encourage the artists to remain among them, and although some would-be critics have attempted to air their knowledge of art in an adverse manner with reference to the productions of art in the City Hall we feel that the unbiassed judgment of a discriminating public will concede to those who have given their time and works to this the first exhibition of British Columbia, a hearty endorsement of its approval and guarantee of future encouragement.

The Queen Pays All Expenses.

The Queen's last "Free Trip to Europe" having excited such universal interest, the publishers of that popular magazine offer another and $200 extra for expenses, to the person sending the largest list of English words constructed from letters contained in the words "British North America." Additional prizes, consisting of Silver Tea Sets, China Dinner Sets, Gold Watches, French Music Boxes, Portiere Curtains, Silk Dresses, Mantel Clocks, and many other useful and valuable articles will also be awarded in order of merit. A special prize of a Seal Skin Jacket to the lady, and a handsome Shetland Pony to the girl or boy (delivered free in Canada or United States), sending largest lists. Everyone sending a list of not less than twenty words will receive a present. Send four 3c. stamps for complete rules, illustrated catalogue of prizes, and sample number of the Queen.

Address, The Canadian Queen, Toronto, Canada. au29-dw2m

Lively Runaway.

A horse belonging to Mr. Morris, of the Cadboro Bay powder works, took a sudden idea this morning that he needed exercise and put the idea into effect by making a race course of Yates street and the docks. He went down Yates street on to Turner's wharf along the water front until he could go no further without going into the harbor. Seeing that he was stopped the sagacious animal laid down without doing any injury to the vehicle beyond breaking the whiffletree. It would not do to say that they were looking for a job but a prominent harness maker and a carriage builder followed the runaway to the docks, where it was stopped.

Wellington Coal.

The old reliable coal and wood yard, office 42 Yates street, is now prepared to supply the market with the best New Wellington Coal.

HEATHORN & McINTOSH.

A Seducer Killed.

Charles Mitchell, of Astoria, shot and killed Charles Johnson on Wednesday, for seducing his thirteen-year-old daughter.

Harvest Festival.

Christ Church Cathedral was nicely decorated yesterday with grain, flowers, fruit and vegetables, the occasion being the harvest festival held last evening. The well rendered programme was faultlessly produced by the full choir. Rev. Mr. Harker preached the sermon and H. Kent rendered several solos. The programme will be repeated next Sunday evening.

An Editor Elopes.

Nat L. Baker, editor and publisher of the Oregon Times, has skipped from Portland with a pretty compositor from his office named Frankie Anderson. He packed up all his type and material, which he took with him, together with $3,000 which he had in the bank; leaving his wife penniless. He went to Vancouver, where he got his boy, who was living there, and then went to El Paso, Texas.

Mount Baker.

Frank Ledger, Mr. Bailey, Oscar Lang and and Bielenburg Bros. have just returned from another attempt to climb Mount Baker. They went to within about 400 feet of the summit, but were unable to go further because of the great crevasse in the glacier. From Mr. Ledger's description of the surroundings up there it seems impossible that human beings have ever gone higher on the mountain than this party of Skagit county boys.

Nelson Handicapped.

The impression prevails that but few lots will be sold at the auction sale on Tuesday, as few residents of Nelson are able to expend $500 on a building, as required by the notice of sale. If these lots had been offered with a building requirement within the means of the average man in a new camp, not less than 100 lots would have been sold, and as many comfortable dwellings be erected within three months. But the fates have willed it that Nelson is to be perpetually handicapped by blundering officials at Victoria.—Miner.

Coming North.

The steamer Umatilla, which sailed from San Francisco yesterday, has the following passengers on board for Victoria: C. E. Redfern, Miss D. Heal, Miss Denny, Mrs. W. D. Dalton and two children, S. Nicks, T. M. Ringsville, Miss M. Daniel, Mrs. E. Brown and two children, Emily Browne, May Browne, Edgar Browne, Loftus Browne, W. S. Cambers, Wm. Cunningham and wife, H. J. Morton and wife, G. B. Edwards, E. Arron, E. Cook, Wm. Jorb and R. H. Benedict.

Beautiful Women.

The magical efforts of Wisdom's Robertine as a beautifer and preserver of the complexion have been attested by thousands of leading ladies of society and the stage. It is the only article ever discovered which gives a natural and beautiful tint to the complexion, removing tan, sunburn, freckles and all roughness of the face and arms, leaving the skin soft, smooth and velvety. All remarks on its delightfuly cooling and refreshing properties, a distinction not found in any other similar article known. D. E. Campbell, agent. *

Murdered at Spokane.

Henry Ellis, alias Doc Ellis, a notorious gambler, was shot and killed at Spokane Falls by John C. Hoefer, a farmer and storekeeper. Ellis induced the unsuspecting farmer to try a hand at three card monte and borrowed off Hoeffer to keep the game going. When he had drained Hoeffer's pockets, he ran out into the street. Hoeffer thought he had the money and ran after him, shouting "stop." He ran nearly a block, shouting that he would shoot, and after shooting in the air once, drew a bead, and the ball took effect in the fugitive's shoulder, passing through the left breast.

White Streamers.

White streamers, flying from the flag staff at the fire department houses, and also at the James Bay athletic club, were tell-tales of someone's happiness. The parties thus "told on" were Mr. Thos. Watson, a Victoria boy, who has won fame on the track, and Miss C. Sinclair, one of Victoria's fairest daughters. The ceremony was performed by Rev. P. McF. McLeod, at the residence of the bride's parents, 54 Humboldt street. Among the many presents received by the happy couple were a handsome clock, album and a set of silver coffee spoons from the members of the fire department, of which body he is a member.

The Wolcott's Orders.

A dispatch from Port Townsend says that neither the Wolcott nor the Bertha is to be sent north. That both were ordered north, the officials in that city do not deny. Lieut. Willey says the department instructions were to keep the matter from the papers, and he admits he tried to throw the reporter of the Post-Intelligencer off the track by professing ignorance. Colonel Evans was recently in Port Townsend, and his opinion of the usefulness of the revenue marine service was published at the time. As a result of his report that the Wolcott had done but little service since she was stationed in these waters, the department asked him what was there for her to do. Then Evans informed Secretary Windom of his suspicions regarding opium and Chinese who were on their way from Alaska to the United States, and incidentally mentioned the fact that Canadian sealing pirates were fitting out for a winter cruise in the north. Then the department had the Wolcott made ready for sea, just to give her officers something to do. The recall of the orders was due to the fact that the cutter was unseaworthy and could not last if attempting to cruise in Alaskan waters at this time of the year.

Wisdom's Violet Cream.

Is a new and elegant preparation for eradicating and preventing roughness of the face and hands. Use it freely at night just before retiring and you will be delighted with a soft, smooth skin. Try it. D. E. Campbell, agent. *

THE CRY OF MILLIONS

OH, MY BACK!

STOP IT NOW

SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley, with the OREGON KIDNEY TEA, to my door. I immediately commenced taking the tea, and to the most miraculous effect, and to the great astonishment of all the guests at the hotel, in a few days I was able to state that I was a new man. I will recommend the tea to all afflicted as I have been.

THE CORNER STONE.

Right Reverend Bishop Lootens Will Officiate on Sunday Afternoon.

The laying of the corner stone of St. Andrew's cathedral will take place at 3 o'clock Sunday afternoon. Bishop Lootens will perform the impressive ceremony in the presence of Bishop [illegible] clergy of Vancouver [illegible] on Sunday morning. A near souvenir, will be distributed when will contain the entire proceedings with the prayers and hymns in Latin and English. The clergy will meet at the pro-cathedral shortly before 3 o'clock. Young Men's Institute No. 85 will meet at 2 o'clock and will form a cordon around the building. The corner stone cost $250 and is a credit to the contractor. Mr. J. Dassonville manufactured the beautiful silver trowel which will be presented by contractor McDonald to Bishop Lemmens. The trowel is neatly engraved and bears the following inscription: "Presented to the Right Reverend J. N. Lemmens, D.D., Bishop of Vancouver Island, on the occasion of laying the corner stone of the new St. Andrew's cathedral, Victoria, B.C., Oct. 5th, 1890." The copper receptacle to receive the manuscript, coins and other articles was presented by Messrs. McLennan & McFeely. The grounds and building will be decorated by members of the Young Men's Institute. In order to avoid accidents it would be advisable for small boys to refrain from climbing on the walls and scaffolding.

COMING ATTRACTION.

Monday, Divorce; Tuesday, Leah the Forsaken; Wednesday, Ingomar.

Now that the winter season has fairly begun in theatrical circles, the companies come thick and fast. Monday, Tuesday and Wednesday evenings the Victoria will be occupied by the Essie Tittell Co., who are well spoken of by the Sound papers. The opening play will be Divorce, speaking of which, the Louisville Journal says:

"Divorce filled the Masonic Temple last night from pit to dome. The play, an excellent one, is of the intensely thrilling school, and appeals more or less directly to the emotional nature of its auditors, particularly to those who have experienced the varying emotions of the genuine article. The stage setting was all that could be desired. Miss Essie Tittell as the heroine, Florence Grantly, presented the picture of the devoted, persecuted wife in a manner correctly conceived and with all the delicate touches of womanly tenderness and grace that distinctly mark her work. Miss Minnie Tittell made a pretty and sprightly Sally, and was generously applauded for her singing of "Paloma" and for her dainty dancing. R. E. French satisfied the demands of the role of Harry Grantly acceptably; his acting was manly and vigorous. Miss Eva French was seen at her best advantage in the character of Blanche Sterling. It is a role exactly suited to her style of acting. Miss Margaret Marshall was extremely good as Miss Princeton. The other characters were all well played."

Died in Saanich.

T. Gregg, the fifth son of J. Gregg, of South Saanich, died at 2 o'clock on Wednesday morning from lung disease. The deceased was 20 years of age. The funeral took place this afternoon.

Ladies and Gentlemen.

Do not throw away your rubber boots, shoes, coats or gossamers, because they are torn or have a few holes worn in them. Remember they can be made as good as new by Geo. A. Shade, shoemaker, 87½ Wharf street. oct1-1m

Wide Tires.

The people are tired already of the only piece of legislation that the member for Saanich ever gave birth to. It was Mr. Anderson who conceived the idea of compelling the farmers to use only wide tires on wagons carrying loads over a certain weight. Petitions are now in circulation praying the legislature to repeal the act, and already 130 farmers in Saanich and 75 residents of Victorians have signed their names.

A Hard Fight.

A real prize fight took place on Yates street last night, between a blue jacket and a steward belonging to one of H. M. ships at Esquimalt. The two principals stripped off everything with the exception of their pants and shoes, and fought a hard battle for upwards of an hour. The ring was a hundred yard one, and was the street between Blanchard and Douglas, that area being used. The fight finally resulted in a draw, both men being exhausted.

From Nanaimo.

The 12:30 train from Nanaimo to-day brought down a large number of passengers from along the line, who intend taking in the exhibition. Among the prominent men who came from Nanaimo were Mayor Hilbert, Aldermen Baker and Craig, W. B. Dennison, American Consul, J. W. Stirtan, T. D. Jones, J. W. McDonald, Alex. Eason, J. Randall, jr., R. Gibson, A. Dick, inspector of mines, Major Downie, and about forty others.

Death's Hand.

Edwin Donald, one of the early pioneers of the province, died at his residence, Michigan street, early this morning having passed the scriptural limit of three score years and ten. The deceased, like others who came to Victoria in early days, amassed a comfortable fortune on which he has been living for a number of years past. He was highly respected by all who had the pleasure of knowing him and those in need always knew that they had a friend in him. His wife survives him.

A Welcome Relief.

The noon train from the capital yesterday, says the Free Press, brought up a relief of three privates in charge of a corporal to relieve the five soldiers at present at Wellington. The retiring soldiers are only to happy to be relieved, while the new arrivals are indifferent to their position. How long the absurdity of the ludicrous farce of keeping Dunsmuir's private soldiers at Wellington is to last is only known to "Alex." Even the soldiers state they have a most foolish duty to perform, and only wonder why the owners of these collieries persist in carrying out the farce, and the militia department allow them to do it.

Fun is Pretty Costly.

During the progress of the play of East Lynn at the Victoria Theatre last evening, a couple of Indian boys got into the dress circle and made themselves very disagreeable by using offensive language. Officer Levin was called in and took the beligerents to the police station and booked them for being drunk and disorderly. The boys were both pretty drunk, but when they arrived at the police station they wanted to go back to the show, as they complained that they had not had enough fun for their money. They discovered this morning, however, that the fun would cost them still more, as his honor added $5 and $1 costs each to the expenses. Another drunk, also arrested by Officer Levin, paid the penalty of his folly with a V this morning. When asked is he was "guilty or not guilty," he did not know, as he had been asleep, but he didn't think that he had been drunk. The officers, however, proved that he been exceedingly drunk, so drunk, indeed, that he had to be dragged to the station.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

[illegible] says the water over the sand bar, at the entrance to Burrard Inlet, at the shallowest place, is now 26 or 27 feet deep at high tide, and any vessel drawing 25 feet can enter the river without trouble.

A number of officers and men of H. M. S. Amphion were practising torpedo shooting yesterday afternoon on Burrard Inlet. The result was, among other things, a large number of dead fish for the gulls to feed on.
